PROFESSIONAL SUMMARY

Experienced Software Developer with a proven track record of designing, implementing, and deploying high-quality software solutions. With a strong foundation in full-stack development and a passion for staying up-to-date with the latest industry trends, I bring creativity and innovation to every project I tackle. Proficient in multiple programming languages and frameworks, I excel in problem-solving and collaborating with cross-functional teams to deliver exceptional results. My dedication to writing clean, efficient code and my ability to adapt to new challenges make me an asset to any development team.

CORE COMPETENCIES

- ✓ Languages: Java, Python, Javascript, C#...
- ✓ Source Control (Git, Github, Bitbucket...)
- ✓ Application Development (Spring, Django...)
- ✓ Mobile Development (Flutter, Android...)
- ✓ Web Development (HTML, CSS, React...)
- ✓ Agile/Scrum Methodologies
- ✓ Database Management (Postgres, MySQL, Redis, MongoDB...)
- ✓ Continuous Learning and Communication

PROFESSIONAL EXPERIENCE

Endava

Software Developer | 15 November, 2021 - Present

- Develop and implement new features for a Java Spring Boot microservices-based application, enhancing its functionality and user experience.
- Debug and resolve complex issues, utilizing debugging tools and techniques to identify root causes and implement effective solutions.

Freelance

Software Developer | 05 December, 2016 - 20 October, 2021

- Since beginning university, I have been involved in multiple projects for local companies, entities, and remote clients from diverse backgrounds. During this period I worked on web apps, mobile apps and scripts (improvements, scraping, data management).

RELEVANT PROJECTS

Rive (Startup/Project)

In university, my team of five friends and I initiated an ambitious startup, aiming to transform e-scooter rentals in our country. We created a promising alpha-stage product that demonstrated our innovation. Unfortunately, unforeseen challenges led to the project's eventual discontinuation.

Personal Projects

During my career I've worked on multiple personal projects I've started purely to learn and understand frameworks, programming languages and concepts. You can find some of them on my Github here: <https://github.com/Pincaptain>

EDUCATION

2016 - Present | Faculty of Computer Science & Engineering UKIM, Skopje

Bachelor of Computer Science - Software Engineering

Currently working on my final thesis.
